

Nusa Penida | Bali | Komodo National Park

Freedive Indonesia

24 May - 1 June 2025

bluebackfreedivingandyoga@gmail.com

What

Come and spend 9 days freediving with manta rays, exploring the warm, rich seas around the peaceful Island of Nusa Penida, while freediving in the turquoise waters of the UNESCO world heritage Komodo National Park off a liveaboard charter.

When

24 May to 1 Jun, 2025

There are 14 spots only. Minimum 8 freedivers.
[Book now to secure your spot.](#)

Nusa Penida | Mantas | Komodo National Park

Island Life

Our journey begins on the Island of the Gods, Bali, where you will take a short 45 minute boat ride to Nusa Penida. From there you'll be transported to our rustic Balinese-style cottages, wrapped in green hills on the north side of the island. An incredibly biodiverse coral reef ecosystem flourishes only 5 minutes scooter ride from our door with regular reef and oceanic manta sightings from the island.

After two days of depth training with our partner freedive school in Nusa Penida, and enjoying a boat charter to explore the coral gardens and go in search of giant manta rays, we'll embark on the second part of our expedition to Komodo National Park.

Wild Komodo

On your 9-day holiday, you will visit Nusa Penida for 2 days, spend 5 days living aboard a diving boat in Komodo, and stay 1 day each in Bali and Labuan Bajo. This will be the absolute trip of a lifetime!

Minimum Level 1 Freediver certification is required.

Our trips will be guided by local sea captains, freediving professionals and a marine biologist to teach us about the mantas and help you identify the various types of sea life in the Indonesian seas.

Please Note: Depth training will only be possible within the range of depth that has been achieved by your certification level, and deeper depths will only be permitted if you have a minimum 6 months experience training freediving and have completed, at least the theory and safety components of your next level of freediving certification to ensure your knowledge base for our depth session in Nusa Penida are well-within your limits.

Our freedive sites will range from 2m to 30m plus.

Proposed Program

Sat 24 May

6am Arrive Bali. Transfer to Ferry
9am Brunch
12pm Check in for Ferry to Nusa Penida
1pm Depart Nusa Penida. Transfer to Accom

5pm-9:45pm Bali to Perth Flights.
Hugs goodbye.
9pm onwards. Arrive Perth.

Please Note: Times and locations for sailing are approximate and may vary considerably in accordance with *Island Time*, sea conditions, and safe anchorage.

Komodo National Park

Komodo NP in Eastern Indonesia was originally established by the Indonesian Government in 1980 to protect the Komodo dragon, although the park is also renowned by experienced divers as one of the top dive sites in the world. Recognized as a UNESCO World Heritage Site in 1991, Komodo NP is situated within a narrow channel between Flores and Sumbawa. It is comprised of three large islands (Komodo, Padar and Rincah) and 26 smaller ones to occupy nearly 2,000 km².

The biodiversity of Komodo NP is phenomenal. One thousand species of tropical fish including the Napoleon Wrasse, 260 species of coral, 70 species of sponges, 7 species of sharks including hammerhead sharks and grey reef sharks and rare marine mammals such as the endangered dugong live within Komodo NP.

Strong daily tidal flows combine with nutrient-rich water upwelling from the depths of the Indian Ocean to create ideal conditions for thousands of species of corals and tropical fish to flourish.
